

## How to add a bar handle

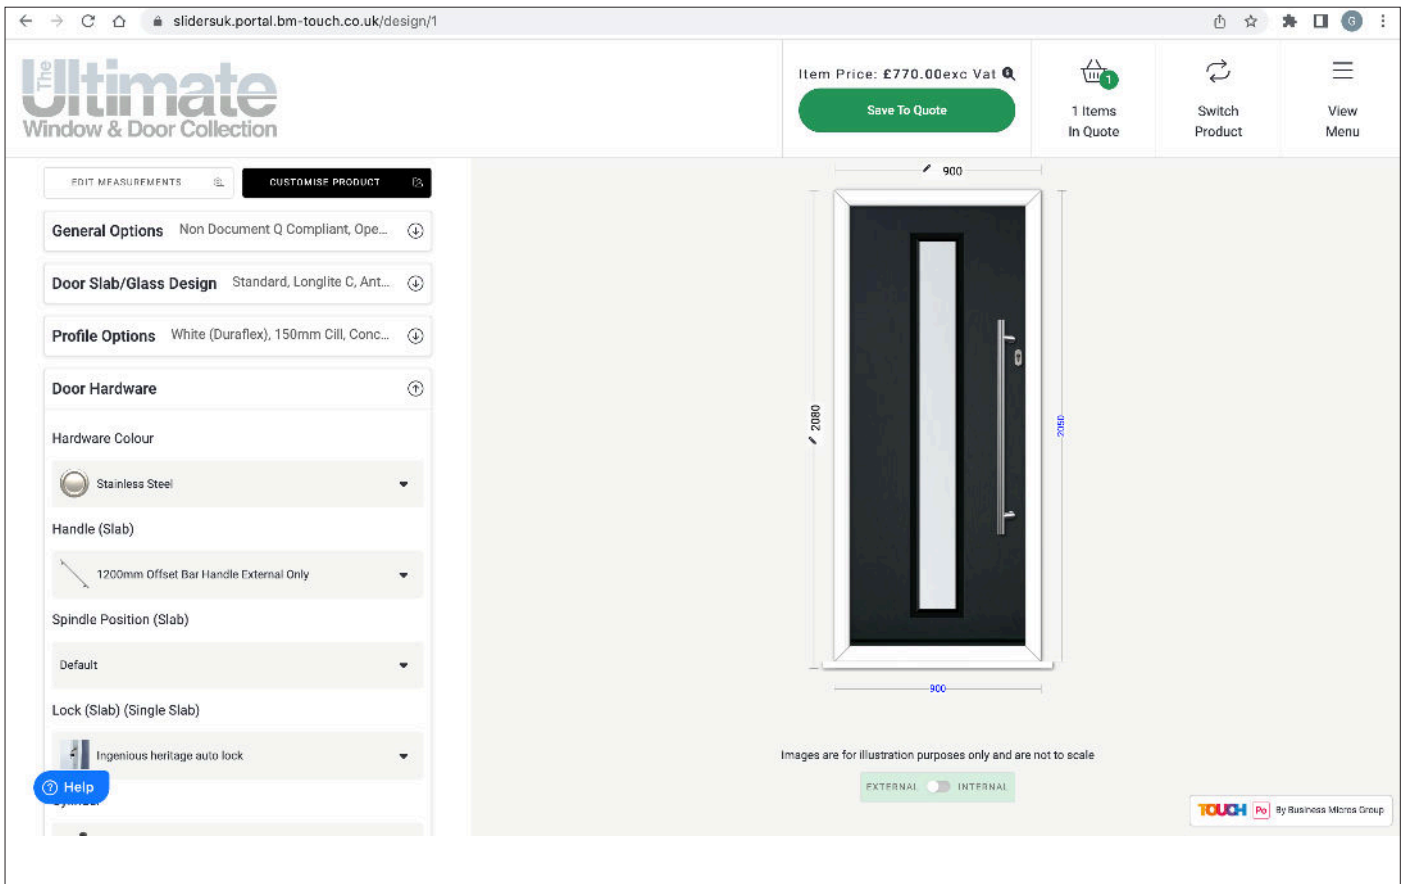

If you require bar handles, you must choose stainless steel under hardware colour.

Then choose either the Heritage or Contemporary autolock in the lock section.

Otherwise, the bar handle options will not appear in the handle section.

You will now be able to choose from the variety of bar handle options.

If you are unsure of which hardware options are available for specific door styles, please refer to the Ultimate Composite Door Collection brochure, or email our composite door team at [sales@sliders-uk.com](mailto:sales@sliders-uk.com) or call them on 01772 698222.
